EXPERIENCE

NNI – Honolulu, HI – Project Manager

September 2021 – PRESENT

- **Responsibilities & Achievements**

- Coordinated orders ranging from \$10,000 – \$1,000,000.00 with manufacturers/suppliers.
- Scheduled and planned work for up to 6 Sub-Contractors as a Prime-Contractor on 20+ contracts. Created proposals, work plans, and other submittals using Office 365 and Adobe applications. Also implemented Google and Microsoft applications in combination to automate tasks such as timesheets and estimation which increased administrative and project management productivity by $\geq 10\%$.
- Independently successfully bid, planned/managed, and closed-out 10+ contracts ranging from \$100,000.00 – \$1,500,000.00.
- Handled \$1,500,000.00–\$2,500,000.00 contracts on a 3-person team.
- Led the implementation of Office 365 tools and cloud migration of all company assets. Introduced and implemented Jira task management/assignment, improving overall company communications.

University of Oregon Entomology Lab – Eugene, OR – Research Assistant

September 2020 – March 2021

- **Responsibilities & Achievements**

- Experience with microscopes, extractions, and isolation of compounds.
- Colony maintenance (monitoring/cleanings/feedings).
- Assisted in experiment setups and data gathering on multiple studies.
- Assisted in collecting resources to support scientific articles.
- Balanced an individual research project, that modeled ant foraging behaviors and chemical olfaction, with routine lab responsibilities.

University of Oregon Cyber Security Lab – Eugene, OR – Research Assistant

September 2020 – March 2021

- **Responsibilities & Achievements**

- Worked in a group to create a distributed social network inspired by a paper written by a lead researcher.
- Learned basics of cyber security from a defensive/offensive perspective.
- Created a GUI for usability of the application.
- Presented work and insights as a team at the end of the project.
